

**William H. Spates, CIAQP, CIEC, CMRS, AMRT, BBEC**  
President - Indoor Environmental Technologies, Inc.

MODERATOR

With over 35 years' experience in the operation, maintenance, inspection, testing and design of environmental systems, Will Spates is well qualified for the investigation of building-related environmental issues.

His company, IET has conducted over 7,000 commercial and residential inspections, has consulted with clients on construction and remodeling strategies to create healthy homes and offices, and currently teaches indoor environmental testing techniques and mold and moisture building remediation to restoration contractors, public health officials and other professionals throughout the country
